

Hands on introduction to artificial intelligence in primary education using Minecraft

3rd Online article

The second Transnational Project Meeting was held in Nicosia, Cyprus with success. The Minecraft worlds for SAINT were completed and final changes were made. The release of our world is getting closer!

The partners shared their own viewpoints on the state of the project and the Minecraft universe through virtual meetings. The date of the next Transnational Partners Meeting is May 16 in Rotterdam, the Netherlands.

Stay tuned for all the great things that are coming!

Follow SAINT on social media and learn all about the progress of the project!
